

➤ Our Services

At Topaz International we would rather understand a little about you and what you do before we just tell you what we offer. This is because we feel not everything works for everybody, so why bother you with the things that mean nothing to you? But, after careful consideration, we decided to do this simple page of what we do.

Airfare Verification: Are you getting the best price within your travel policy?

Internet Comparisons: How do your booked airfares compare to a select number of websites?

Potential Policy Savings: What would be the impact of changing your travel policy?

Hotel/Car Rental Rate Verification: Are your negotiated rates loaded correctly and booked correctly?

Travel Program Review: A complete end-to-end review of your entire travel program.

Expense Report Audit: A last validation that fraud is not taking place in your company.

GDS Comparison: Corporations considering a change may want to consider this analysis.

Benchmarking Data: Unique data that is only business travel which the industry loves.

Then we offer a lot of free items that may be of interest, and these are found on our website or by contacting us directly:

E-Books: Industry subjects that we thought might be of interest to our industry and clients.

White Papers: More focused studies on items travel buyers like to read about.

Data: We do give some data to our corporate buyers.

Finally, we like to dabble in social media, so you can find us:

Twitter: <http://twitter.com/bseitz63>

Blogs: <http://bradseitz.typepad.com>

Facebook: <http://www.facebook.com/topazinternational>

LinkedIn: <http://www.linkedin.com/in/bradtopaz>

➤ **TOPAZ
INTERNATIONAL**
Your performance measurement and process improvement company dedicated to making corporate travel buyers all over the world better.
